PUBLIC LECTURE

Experiments in Art and Oceanography

Prof. Dr. Lisa Cartwright

Thursday 15 October 2026, 18:15–19:45, UniS, room A-122

With our oceans in crisis, how can transmodal art-science collaborations reshape critical ecological practice? Embodied Pacific, a Getty Foundation PST Art + Science Collide project, is the focus of this talk.

Prof. Lisa Cartwright is a feminist art, technoscience, and visual studies writer and an emeritus professor in visual arts and communication at the University of California, San Diego, where she taught in the interdisciplinary PhD specializations in art practice, science studies, and environmental research.
