**2 ECTS****Costs**

All costs are covered  
(excl. lunch breaks)

**Language**

English, German

**Registration**

By 5 February 2024  
via KSL

In Milan, our journey blends art and science in a captivating treasure hunt. Engaging with curators at the Museo degli Strumenti Musicali and the Fondazione Prada, we delve into unique exhibitions, gaining valuable insights. We explore Milan's vibrant queer and drag scene, peek behind the curtains of the fascinating La Scala, possibly catching an opera performance. At kinLAB, we'll experiment with activist science, creatively linking our research to ecological concerns. In the Museum Arte e Scienza, the "Path of Authenticity" awaits, inviting us to explore the intertwining realms of art, science, and authenticity. The SINTA excursion offers course opportunities for shared discussions and explore the city.
